What you get:

1. Business Plan Template and full financial tables and graphs – A complete, fully written, business plan with a full example of a business that you wish to start including financial numbers that are pertinent to the industry. (20 to 40 pages!) Plus, all the expected financials in and excel spreadsheet to tweak as you see fit for your business. (At least 20 worksheets!)

2. eBooks – You get 3 full size and real ebooks. Not the “get rich quick” type you see floating around.

Hurdle: The Book on Business Planning – Over 200 pages of sound advice on how to plan out your business and how to get over the hurdles of both the business world and the ones we impose on ourselves.

On Target: The Book on Marketing Plans – Over 350 pages of smart focused advice on marketing your business and writing a focused marketing plan.

Go Big or Go Home – Over 300 pages to help you understand the principles behind small business funding,

growth and development. Whether you're looking to leverage an angel investor network or go on to solicit a big venture capital firm, you'll get an inside track on how to position your startup company for BIG growth.

3. Funding Sources – Probably the biggest value in this whole package. You get a list of over 1200 Venture Capitalists and Angel lenders in an excel spreadsheet sorted by location, type of lender, and industry focused on. That alone is worth the price of this package. If you don't believe it go ahead and look around. To get this in this format it costs no less than \$49.00 bucks! You also get a list of the top 500 SBA loan lenders in the US broken down by state.

4. PowerPoint Presentation and Templates – Something no one else offers! You get a basic outline of a PowerPoint presentation based on your business plan template. This outline sets up the basics of what you need and what is expected of bankers, VC's and other lenders. Just like your Business Plan this is based on SBA standards. **PROVEN STANDARDS!** To help with making the presentation look good we have also provided PowerPoint templates. Some pretty cool, but not overbearing, animated templates too!

5. Tools and Resources – To round out the package we have also included links to some of the many resources on the net for small business and many key templates that every business needs.

- Bank loan request template
- Employment agreement
- Marketing tactical plan template
- Fund raising proposal
- ...and MUCH MORE!
